

# road safety packages — K to grade 7

ICBC learning resources have been developed to ensure that B.C. students obtain road safety skills and awareness. We provide these resources for FREE to all B.C. schools.

## They're never too young to learn road safety

Developing traffic safety skills is critical to all ages of school children. Our RoadSense Kids resources support cross-curriculum learning on various road safety topics.

### K to Grade 3 RoadSense Kids: Activities for learning road safety

Students complete a variety of road safety activities related to staying safe as passengers, pedestrians and cyclists. They will develop their very own road safety album that can be shared with other students and their family.

Package includes:

- Child passenger safety and booster seat content.
- Innovative learning plans and stimulating road safety activities.
- *Walk 'n' ride rhythms* CD—Will Stroet performs fun and inspiring road safety songs about booster seats, pedestrian and bike safety.
- *Walk smart, Bike safe* DVD and teaching notes.

### Grades 4 to 7 RoadSense Kids: Smart choices—Safe choices

Road safety lessons support cross-curricular learning outcomes including real-world practice of leadership, peer support and strategies for dealing with peer pressure.

Package includes:

- Innovative learning applications to walking, biking, distractions and other road safety concerns.
- Fresh approaches to effectively assess and evaluate student learning.
- *Walk smart, Bike safe* DVD and teaching notes.

### K to Grade 7: *Walk smart, Bike safe* DVD

Hosts Dante and Tiara teach the dos and don'ts of pedestrian and bike safety on city and country roads.

The video segments are organized according to age group and skill level. The DVD includes teaching notes.

### Grades 1 to 7: *Bike smarts for children*

An instructor's handbook to help children seven to 13 learn safe-cycling skills.

## SMART Board teaching resources for K to Grade 8 classrooms.

### K to Grade 1: Activities for learning road safety

This resource includes fun, interactive, ready-to-use lessons, worksheets, video clips and songs to teach young learners about staying safe as pedestrians and vehicle passengers.

### Grades 2/3: More activities for learning road safety

Pedestrian and passenger safety is explored through interactive games and discussions. (Note: SMART Board RoadSense Kids K/1 is not a prerequisite).

### Grades 4 to 7: Activities for reinforcing road safety

Teachers can choose discussion topics and other interactive activities that reinforce road safety skills and are best suited to their geographical area and students' needs.

### Grades 7/8: Smart choices—Safe choices

Student learning is focused on four key areas: the importance of eye contact with drivers, the dangers of using hand-held devices while crossing streets, the need to be a calm passenger and the importance of planning a pedestrian route with safe crossings.

# road safety packages — grades 8 to 10

One-in-five new drivers will be involved in a crash within the first two years of driving. Research shows that injury and death can be prevented if young people adopt self-protective practices. We want to help keep youth safe, but can't work alone—we need support from communities, parents, and schools.

Our road safety packages for grades 8 to 10, designed with flexibility and ease-of-use in mind, include activities that relate awareness of road safety to larger issues such as personal and social responsibility, risk assessment, or decision-making. Lessons help teens understand the risks and responsibilities associated with being a passenger or getting a driver's licence.

## Grade 8 (Health & Career Education)

Students assess the potential risks associated with a variety of road-related situations. Topics include issues such as personal and social responsibility and decision-making.

Using case studies, scenarios and a school walkabout, students explore the hazards and risks and their role in road safety. Through peer assessment and self-reflection, students are encouraged to consider their individual responsibilities and actions with respect to road safety.

Includes Your Ad Here poster set and the DVD: *A crash course in common sense.*

licence represents an extension of personal mobility and independence.

Includes Your Ad Here poster set, 180 video contest DVD and segments from the videos: *Final marks* and *Your life, Your choice.*

## Other ICBC road safety educational resources

### Your Ad Here Poster Set

Our Your Ad Here Contest ran for three years (2010–2013) providing us with more than 500 amazing road safety messages created by high school students throughout B.C. Poster sets of the winning 2012–13 entries are included in grade 8, 9 and 10 curriculum orders, and available for ordering separately.

### Road Safety Speakers

Our road safety speakers tell personal, heart-wrenching stories about wrong choices made when driving. Their messages are powerful and motivate teens to think twice about taking risks on the road.

We have a variety of expert speakers available for booking.

To view video profiles of each speaker or for more info, go to [icbc.com](http://icbc.com)

## Grade 9 (Health & Career Education)

Students develop and propose strategies to avoid unnecessary risks on the road and in the community.

Through the use of collaborative learning and group discussion techniques, students examine issues relating to road safety and responsibility. Using guided reflection, students consider road-related risk as well as their personal and social impact.

Includes Your Ad Here poster set and the DVD: *Street Level.*

## Grade 10 (Planning)

Students analyze individual and societal practices associated with road-related risk reduction and injury prevention (for example, obeying speed limits, wearing seatbelts, and driver education).

With its strong focus on matters of immediate personal interest to students, Planning 10 provides a natural context for students to reflect on what's involved in safely driving a vehicle. Driving is an important priority for many young people, since a driver's

## 180 Video Contest DVD & Teaching Resource Guide

A selection of winning road safety videos (suitable for older students) about the dangers of speeding, distracted driving and impaired driving created by 19–25 year olds for our 180 video contests. DVD comes with a teacher's guide to prompt class discussions and student interaction. Check out the winning videos on our [YouTube channel](#).
